

Intelligent Systems with Proven Payback . . .

AAAI Salutes the 1995 Innovative Applications of Artificial Intelligence Award Winners:

- Singapore Telecom • Ministry of Agriculture and Land Reclamation, Egypt
- Port of Singapore Authority • IBM Corporation, USA • Jet Propulsion Laboratory, USA
- VTT Information, Finland • Korea Advanced Institute of Science and Technology
- GTE Laboratories, USA • US Army AI Center • GE Capital Mortgage Corporation, USA
- US Department of the Treasury • Canon USA, Inc. • General Motors Corporation, USA
- Mita Industrial Co., Ltd, Japan • United Technologies Research Center, USA

Please join us to learn more about these award-winning state-of-the-art success stories at IAAI-95 in Montréal, Québec, Canada, August 21-23. You will also hear W. Eric L. Grimson from the Massachusetts Institute of Technology's AI Lab talk about Image Guided Brain Surgery, where emerging "enhanced reality" visualization methods are leveraging 15 years of image understanding research to provide systems that guide surgeons to extract targeted tissues with minimal collateral damage.
